

What is the highest form of flattery?

A plateau.

Ordinance E-1, Section 7 – Ordinance E-1, Section 7 – It shall be unlawful for any person to discharge or cause to be discharged any storm water, surface water, groundwater, roof runoff, interior to exterior footing drainage, subsurface drainage, cooling water or unpolluted industrial process waters to any sanitary sewer.

Sewer Flows – We ask all Greenwood residents to make sure that you do NOT discharge or pump any water from a basement sump pump, downspout and/or any type of ground water/run-off into the Town's sanitary sewer system. The Town of Greenwood spends considerable funds to have all of the Town's wastewater properly treated and disposed of. Any unnecessary flow is a waste of dollars. In an attempt to keep rates as low as possible, we ask all residents to double check this important issue. See above Ordinance E-1, Section 7.

Reminder – Spring forward for Daylight Saving Time on Sunday, March 10 at 2am. Check that all smoke detectors are operating properly and replace the batteries.

Police Department Announcements

Crime Stoppers allows the caller to give information anonymously in a safe and protected manner without the prospect of retribution. You can call the Delaware Crime Stoppers tip line (1-800-TIP-3333) anytime with any information regarding any crime or fugitive.

Rewards are given for any tip that leads to an arrest.

Safety Tip

With the weather warming up, pedestrians and bicyclists will become more prominent throughout town. Please be aware of your surroundings when driving. Bicyclists please remember to wear your helmets.
