Safety Tips

-May is Motorcycle Safety Month! Motorcyclist deaths occurred 27 times more frequently than fatalities in other vehicles. To keep motorcyclists safe, we urge everyone to share the road and be alert, and we're reminding motorcyclists to make themselves visible, to use DOT-compliant motorcycle helmets, and to always ride sober.

-Spring showers bring May flowers - and wet driving conditions. Slow down on slick roads, and increase your following distance even when mist begins to fall. Just a small amount of water can mix with oil and grease on the road to create slippery conditions.
